

June 5th to August 25th, 2018

STEM SUMMER PASSPORT ACTIVITIES

The Hill Aerospace Museum STEM Summer Passport Program will take place in the Museum's General Marc C. Reynolds Aerospace Center for Education. Each week during the summer, our Education staff will be offering the classes listed below. The classes will be open to kids at least eight years of age on a first come first serve basis. Parents are welcome to attend the classes with the kids. Each student will be issued one Museum STEM Passport. A subject page in the Passport will be stamped after each class session. When the kids get all of the pages stamped by attending all classes, they will receive a special pin.

Tuesday
11:00 am

Electricity

2:00 pm

Chemistry

Wednesday
11:00 am

Mission to Mars

2:00 pm
